Editorial Comment

By NORMAN H. PARKS, Publisher Register

Cornelius Vanderbilt, Jr., scion of that rich and aristocratic family, whose wealth and power, built on the far-sighted investment of a doughty old riverboat Captain in New York City, when that metropolis was hardly more than a village, must be crazy. There can be no doubt about it. His father and mother, his sisters and brothers, all his near-royal cousins-in-law are maneuvering to keep the young man broke. A straight-jacket is deemed the contrivance necessary to put him in his class and teach him not to violate the rules of the upper generation of the Vanderbilts.

The boy insists on working.

Scandalous!

And nothing can shame him nor make him admit he is wrong. His titled relatives have taken him into the cathedrals of France and Italy where repose the busts or life-size statues of the elite of Europe, born to the purple, who never in all their lives soiled their lily-white hands with work. What matter if history—read by a true-blooded American—revealed these selfsame aristocrats as gluttons and rogues, often fiends and not infrequently imbeciles? What matter, indeed! An infamous system of government created them parasites because at some distant time, an ancestor of strength and genius wrested the control of an empire from some weaker dynasty.

The progeny, several generations later, surviving only by the grace of a custom not yet expunged from the old nations of the earth, to replenish the exchequers depleted by dissipation and degeneracy, married empty-headed daughters with full purses.

Hugging to their bosoms the foreign slant on life, the Vanderbilts view with abhorrence the outcropping of those characteristics in young Cornelius that made the first generation famous and respected, often feared.

So Christmas day the Associated Press carried a report that almost made the father of young Cornelius human—it said that a gift of a million to the young newspaper man celebrated the birth of Christ, when all mankind is kin. But the next day the premature report of Christmas charity was denied, and subsequently it has been confirmed that the old aristocrat still held his son as incompetent and beyond the pale. The family did, however, put in trust a certain part of Cornelius' inheritance, to pay off creditors in Los Angeles, San Francisco and Miami who had bought stock in the tabloid promoted by young Vanderbilt.

No, the young man is not to be trusted—yet! He insists on going his own way, and mixing with the proletariat. A few months or a year ago, they were trying to get a court order to put the shameless young democrat in durance vile, while he be observed by an eight-

cylinder alienist for his sanity. This failed, but the relatives of Cornelius still are convinced that he is crazy.

Yes, crazy—Why?

He wasted several hundred thousand dollars in the newspaper game, they claim. His sister wasted millions on a no-count. His brother and uncle have spent as much in a month on a chorus girl as the boy lost in his publishing venture in a year. Young Cornelius gave work to thousands of men and women, so the money was not lost to industrious and capable and deserving people. His progenitors, as well as the present generation of Vanderbilts, poured their money into channels of dissipation, rarely bringing joy to anyone. But that is the aristocratic way of spending unearned increment, the only kind of increment that such aristocrats ever have.

Rather than censure the young man, the family should offer up thanks that at last one member of their line had some true characteristics of the original head of the household, and in him see personified the American principle that to work is honorable, to loaf despicable; that in his business venture, he has lifted from the name of Vanderbilt some little of the odium that is attached to that disintegrating household; that by attempting to run a newspaper, though failing to make it pay, he has demonstrated that he has ideals and can hold his head high up in that altitude where the tenets of democracy fill the lungs of weaklings and make of them MEN.

Give the son and the daughter a little time and breathing space and they will prove that deep in the American blood is character and strength that the profligate and brainless deportment of a few members of a family cannot breed out.

The daughter is the Vanderbilt who several years ago asked to have her marriage to the Duke of Marlborough annulled by the Pope that she might again become an average citizen and wear only that title, than which there is none nobler, and discard the empty one which her foolish mother bought for her with an inheritance and her birthright—the love of an honest man.

So there is hope for even the house of Vanderbilt.

The son is adjudged insane by his degenerate relatives because he would work. The daughter caused consternation among the snobs because she broke away from the nobility, and yearned to again be just a woman—a member of the noblest fraternity on earth.

The blood of the elder Vanderbilt was thicker than water.

Another fifty years and the snobbish virus that has thinned the blood of the aristocratic Vanderbilts may be purified by honest work and noble toil so that the shade of the old commodore may eventually rest in peace.

S.O.S Catholic Homes Needed To Board Welfare Department Wards

One of the greatest needs facing the Children's Department of the Welfare Board at present, according to Mrs. Ruth W. McCord, executive secretary, is found in the limited number of Catholic homes available for placing children who are wards of this department.

A special plea is being made to all Catholic homes of Washington, Eden, Murray and Pleasanton townships to open their doors to these boys and girls who for various reasons have been abandoned or taken from their own homes.

No expense will be incurred by families who take in these children. Their clothes are furnished by the Children's Department and if they become ill their doctor's bills are paid. The foster parents are given \$17.50 per month for each child and this has been found sufficient to pay for their care. All extras, such as haircuts, shoes half-soled, etc., are paid by the Children's Department. The state and county allow \$20

With Union-Ethyl, Brock and Schlee broke the American record for sustained flight in an aeroplane without refueling. With Union-Ethyl a new world's record tractor run was set.

Today Union engineers announce a further achievement—NEW ADVANCED SPARK POWER.

And only with Union-Ethyl can this new Advanced Spark Power be obtained. Only with Union-Ethyl can Advanced Spark Power extra mileage be realized. It gives you a maximum pressure of around 500 pounds per square inch on the piston top as against a 300 pounds maximum pressure the old way.

Complete details of this noted advance with description of results you can expect are described in a little booklet obtainable from any Union dealer. Drive in and ask for one at the first opportunity.

Union-Ethyl pumps are easily identified by the blue and white spiral stripes

MYSTERY DANCE TO BE GIVEN BY LEGION FEB. 9TH

Biggest Event of Dance Season, Says Legion Commander Dutra

"Insure yourself against instantaneous combustion" is the warning to those who plan to attend the "Mystery" dance to be given by the Washington Township Post of the American Legion at the Garden of Allah on Saturday evening, Feb. 9.

"Special lighting effects, vaudeville, fireworks—but there the mystery is involved," states Commander John Dutra who announces that committees have been appointed to take care of all details.

The last dance given by the Legion at the Garden of Allah was a pronounced success and an equally large crowd is expected again. Dancing to the accompaniment of one of the best district seven-piece radio orchestras will continue from 8:30 o'clock to 1 o'clock.

Funds will be used for various phases of the Legion's program including philanthropic and civic projects.

Feeding the Navy

THE enlisted personnel of our navy numbers about 86,000 men whose activities produce healthy appetites. Generally speaking about 60,000 are on sea duty, the others being assigned to duty at navy yards and training stations.

The satisfying of their appetites calls for 258,000 meals every 24 hours—an annual total of 94,170,000 rations, at a great cost approximating \$20,000,000. This job, enormous as it is, is doubly complicated because these men are located on some 420 vessels and at 20 shore stations, not including hospitals, which are scattered all over the world.

For economy sake and convenience of handling, annual supply purchases are made—bids being advertised for and opened publicly. The quality must be high, the character suited to the climate where used and all food must meet the requirements of the pure food and drug act. Meats must meet the approval of the bureau of animal industry.

Stocks of "dry" items are maintained at Boston, Brooklyn, Philadelphia, Hampton Roads, Va.; Bremerton, Wash., and Mare Island, Calif., from which points these and other items are dispatched to other stations and ships as required.

In round numbers, 70 cars of butter, 85 cars of milk, 225 cars of sugar, 525 cars of flour, 540 cars of fruits, 1,890 cars of meat and meat products and 2,400 cars of vegetables—111 trains of 50 cars each, with 15 cars left over for good measure, are used. And this does not, of course, include hundreds of cars of other miscellaneous items not mentioned above.

TOYAN ELECTS ALL OFFICERS AT MONDAY'S MEET

Washington Township's Room at Hospital Is Half Paid For

All officers of the Toyan Branch of the Baby Hospital Association were re-elected at a meeting held at the home of Mrs. J. C. Shinn Monday afternoon; Mrs. James R. Whipple, chairman; Mrs. W. H. Ford, secretary; Mrs. J. C. Shinn, treasurer; Miss Sophy Gallegos, vice-chairman; Mrs. F. M. Hudson, chairman of sewing.

The treasurer was instructed to forward a check for \$250 as this year's pledge toward the Baby Hospital and paying for half the amount necessary for furnishing Toyan Branch room of Washington Township. Most of this money was raised through the sale of brooms.

Mrs. Hudson reported 150 garments made during the year.

An average attendance of 14 was reported.

The next meeting will be held at the home of Mrs. Will Patterson who has taken a house on Stanford campus at Palo Alto.

Delegates from Toyan Branch attended the annual business meeting of the Baby Hospital Association in Berkeley Wednesday.

Don't Fail To Get New License Plate

Just another reminder that new license plates for all automobiles must be secured before the last day of January if the extra fee is to be avoided. Plates are secured at the Motor Vehicle Department, Alice street, Oakland.

According to the California State Automobile Association, during the past year tens of thousands of motorists were haled into court because their license plates were not in conformity with the state law. Motorists are warned that the authorities will insist on the new plates being placed on cars to conform strictly with the law.

The new plates are larger and have greater visibility than the 1928 numbers, and there is less excuse for the plates being obscured. It is also pointed out that the plates must be kept free from dust and be easily legible at all times.

Shinn last Saturday evening are: Mrs. Alma Inman Parker, chairman; Mrs. Shinn, Mrs. P. A. Ellis, Miss Martha Sanford, Gertrude Ellsworth and Elizabeth Shinn. Rev. A. W. Seebart, pastor, met with the committee.

Others helping with the plans for guild work are Mrs. Webb, Mrs. Cummings and Mrs. Seebart.

Germany Owes for Army of Occupation

Washington. — Almost a quarter of a billion dollars still is owed to the United States by Germany for expenses of the American army of occupation after the war. Gen. Frederick L. Carmichael, chief of finance, said in his annual report to Secretary of War Davis.

The balance due this country June 30, 1926, was \$233, 141,247.42, and this sum has been reduced by subsequent payments to \$210,582,775.85. The army bank maintained for the receipt of soldiers' deposits contained \$2,021, 900.43 on June 30, 1928, and the average deposit amounted to \$233.

Carmichael said his department was handicapped by a shortage of officers and that it had been necessary to assign officers from other branches of the service to finance duties. He recommended a change in the law to regulate this situation.

MR. BURR STRESSES NEED FOR OTHER WELFARE CLUBS

Organizations Asked To Form Departments To Help This Work

The real need for further development of the work of the Children's Department of the Welfare Board, according to President E. W. Burr at the meeting held last week at the Niles Library, is the organization of other Welfare Groups. It is hoped, stated President Burr, that clubs of all kinds will organize "Welfare Departments" that will be interested in seeing for the children of this department and helping to raise funds to carry on the home at Niles and to care for other necessary expenses connected with the care of the 56 children now under the supervision of this department.

Welfare Group No. 1, composed of members from Niles and Centerville, limited its membership to 30 in order that the group could be accommodated in the homes. Welfare Group No. 2 is practically in the process of being organized, Mrs. Wm. Moore, president of the Civic Club, having stated recently that the members of that organization were considering the plan of becoming a Welfare Group. It has been suggested that various church organizations install a welfare department as the Hill and Valley Club of Hayward has done. Several members of the Country Club of Washington Township have also suggested a Welfare Department in that group.

"IN OLD ARIZONA" ALL "TALKIE" AT T & D THEATER

"In Old Arizona," a William Fox super production and the first outdoor all-talking picture ever made, will come to the T & D theater, Oakland, Saturday.

It is an epochal drama of Arizona in the days when romance flowered, when love came quick and hate quicker, when death lurked just around the corner.

"In Old Arizona" is not a Western picture. It is a fine story of a brave man's passion, the perfidy of a woman's Judas-like kiss, the tragedy of the other man, deceived.

Warner Baxter, male lead in "Ramona" plays a romantic adventurer. Then there is Dorothy Burgess, direct from the legitimate stage, in the part of Tonia, leading woman; and Edmund Lowe, of "What Price Glory?"

For Economical Transportation

The Outstanding Chevrolet of Chevrolet History - a Six in the price range of the four!

represents 4 years of Development
and over a Million miles of Testing

Years ago, the Chevrolet Motor Company designed and built its first experimental six-cylinder motor. This far-sighted step was taken because Chevrolet engineers knew that the six-cylinder motor is inherently the most perfectly balanced motor—the ideal power plant to meet the growing public demand for greater reserve power, faster get-away and, above all—smooth, quiet performance.

During the last four years, over a hundred six-cylinder motors were built by Chevrolet engineers and tested on the General Motors Proving Ground.

Day and night, through winter's cold and summer's heat, the incessant testing went on—until the present motor was developed and finally pronounced correct.

At the same time other Chevrolet engineers were perfecting other parts of the chassis. And another great automotive organization—the Fisher Body Corporation—was devoting its gigantic resources to the creation of the finest, sturdiest and most beautiful bodies ever offered on a low-priced automobile.

As a result, the Outstanding Chevrolet offers an

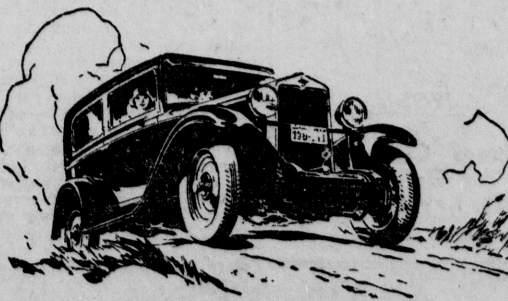

order of well-balanced excellence—a combination of performance, comfort, beauty and handling ease that is truly remarkable—with a fuel-economy of better than 20 miles to the gallon of gasoline.

You owe it to yourself to see and inspect this remarkable car. Come in today!

Would Remove Cause of "Bootlegging" In High Schools

A blow to the "bootleg" high school fraternities by removing reasons for their existence was struck recently by Assemblyman Roy Bishop, of Alameda, with the reported support of a number of leading educators of the state.

A bill introduced by the Alameda assemblyman would repeal the law prohibiting secret organizations in high schools, one of the sore spots of school administration for several years.

Planned by Niles Parent-Teachers

Are fathers parents? Evidently,
since they are all being asked to
become members of the Niles
Parent-Teacher Association and
the organization is all set to win
the district prize offered for the
group which enlists the greatest
number of "dads" this year. Lo-
cal Parent-Teacher Association
members are also working to win
the prize offered for the most
new members and for the most
unique idea of gaining new mem-
bers.

The unique idea of rewarding
all "dads" who join and pay the
small membership fee of \$1 be-
fore February 10, with a dinner,
free of charge, was advanced by
Mrs. Roland Bendel at the meet-
ing of the association held Tues-
day afternoon.

Mrs. Bendel was made chair-
man of the dinner and Mrs. J. E.
Townsend, chairman of the pro-
gram committee, appointed to
help in arranging entertainment
for the evening. Dinner will be
served in the school cafeteria at
6:30 o'clock on February 12. Fol-
lowing the dinner cards will offer
the diversion of the evening and
prizes (home-made cakes) will be
offered for high scores held by
honor guests, including all fathers
who join the association and
any other man or woman in Niles
who wishes to aid this worthy
cause by becoming a member.

Every man and woman in Niles
whether they have children in the
Grammar school or not are in-
vited to become a member of the
Niles Parent-Teacher Association,
and to help the local organization
to win recognition in the district.

As an advertising stunt for Niles
nothing could be better. If the
Parent-Teachers' Association wins
any one of the prizes it will be
given publicity throughout the
county and will be one more way
of putting Niles on the map.

All members of the association
are asked to donate either fifty
cents or a part of the refresh-
ments toward the expenses of the
party. All children who attend
will be charged fifty cents for the
dinner.

All reservations must be made
with Mrs. Bendel or Mrs. Harvey
Braun, president, by February 10.

The Parent-Teachers' board will
act as advisory reception commit-
tee.

The dinner will also be a cele-
bration of Founders' Day, one of
the annual red-letter days in the
Parent-Teachers' calendar and ob-
served for the benefit of the de-

partment which assists in founding
new organizations.

Here's a good chance to find out
how many fathers are parents!

Niles School Enrolls

to the register of the Niles Gram-
mar school when it opened after
the Christmas vacation, according
to E. D. Bristow, principal. Nine of
these were beginners and five
were transfers from other schools.

MOTHER'S CLUB HAS
BIRTHDAY PARTY

Tuesday evening the Mother's
Club celebrated three birthdays.
The Christian Endeavorers were
invited as two of its members
were the honored guests. Those
who received cakes were Mrs. G.
Bowers, John Masters, and Orville
Blose. A delicious supper was
served at ten. The twenty-three
guests had a most enjoyable time
playing games and singing.

CATHOLIC HOMES

per month for each child. The
\$17.50 is paid to the foster moth-
er for the child's board and care.
The other \$2.50 is kept by the
Welfare Board to pay for the
child's clothes, hair cuts and ex-
tras. In case the child is an in-
fant, then \$20 a month is given
to the foster mother as extra milk
and extra service as needed for
the babies.

There is a state law which pre-
vents placing Catholic children in
Protestant homes. For this reason
there is imperative need for Cath-
olic families to make room for
these little derelicts of fortune
who are cared for temporarily at
the Children's Home in Niles, but
who must be placed as quickly
as possible in order that there
may be always room at this em-
ergency shelter for those who are
thrown upon the care of the pub-
lic and need immediate care.

All Catholic families who are
willing to take one or more of
these children should communi-
cate immediately with Mrs. Mc-
Cord at the Health Center at
Hayward.

Unfortunately some of the
homes are opened only to a very
particular kind of child. It seems
that some people fail to realize
that dark skin and bristly hair,
ungainly legs and uncouth voices
belong to hearts just as lonely
and just as needful of love and
care as in the case of the fortun-
ate ones whom nature blessed
with golden curls and blue eyes.
Remember the ugly duckling!

MRS. ZORNS WINS
FUR COAT FOR AN
AIRPLANE RIDE

Ever hear the story of the
Scotchman and the airplane? Not
this one. It concerns Otto Zorns,
superintendent of the Arden Salt
Company, at Newark, and his
boss, the Mrs.

With friends they were visiting
the Oakland air port. A Scotch-
man whom they knew insisted
that they take a ride via air. He
insisted that it was worth the \$5
and more. Now this opinion com-
ing from a Scotchman convinced
Mr. Zorns that the trip indeed
must be worthwhile. So he de-
cided to risk it.

But not so the Mrs. "Not me,"
she said. "I'm safer on land."

They argued and persuaded,
begged and implored.
"A new fur coat if you'll go
up," promised Mr. Zorns.

"Done," said Mrs. and up they
went. When they got up about
2,000 feet she opened her eyes—
and really enjoyed it.

Said Zorns—"Not a bad ride for
five dollars."

"And a fur coat," reminded his
wife.
